*Uniportal video-assisted thoracic surgery, and the uni-surgeon: new words for the contemporary world*

In the article entitled “Uniportal video-assisted thoracic surgery, and the uni-surgeon: new words for the contemporary world” on 07 March 2018 (1), there were two typos in the *Table 1* [in the first line, reference after author “Gonzalez-Rivas” should be (4) instead of (3), year of publication should be 2011 instead of 2003].

This article was updated to correct the *Table 1* as following:

**Table 1** Evidence table: reduced length of skin incision to perform uniportal video-assisted thoracic surgery (U-VATS) anatomical lung resection

Author	Year of publication	Type of resection	Length of the skin incision	
			Chest (cm)	Other regions
Gonzalez-Rivas (4)	2011	Lobectomy	5.0	–
Wang (8)	2015	Lobectomy/segmentectomy	4.0	–
Ocakcioglu (9)	2015	Lobectomy	3.0	–
Yang (10)	2015	Lobectomy	2.5	–
Liu (11)	2014	Lobectomy	0	5 cm sub-xiphoid
Zieliński (12)	2007	Lobectomy	0	5–9 cm transcervical

The publisher regrets the error.
